Player Additional Notes:

Jean Butez	Kept a clean sheet this game and dealt with each shot well, great at directing the defense verbally with defense operating well, there were times where he wasted possession when distributing, he thought that he had less time than he actually did
Dino Hotic	Seemed to be Cercle's best player, directed play on the field although the team struggled to get out of their half at times, good communicator and leader on the pitch, could be more progressive with his passing to move the team further up the pitch
Kevin Denkey	Could make more runs in behind defense to expand the field and move team further up the pitch, quiet with interplay between teammates, great pace and strength when taking on defenders
Anthony Valencia	Superb technical ability and great understanding of the players around him, moves into useful pockets of space to create chances, rarely loses the ball on the dribble
Toby Alderweireld	Commanding leadership on the day, organized defense to not allow many chances for the keeper to save, sloppy passes at times, smart to not dive into all challenges
