Physical Description (Injuries, Glasses, etc.) _____ GRADUATION May 2021

Body comp compares to Rick Porcello. ML ready frame, lean & long arms, wide shoulders. No known injuries. Doesn't wear glasses or contacts.

Abilities

Mixes a curve ball with a slider, plus cut FB and changeup. Cut FB has plus late movement, esp in to RH hit. Plus awareness in using these pitches to change the pace. Plus command & poise on mound. High awareness in knowing where he needs to put the ball. Rarely waves off his catcher. Clearly had a plan for attacking the strike zone. Didn't get rattled when RF made an error, leading to a run. Delivers ball with driving action, using his back leg to develop power. Smooth & clean arm action.

Weaknesses

Slow delivery to the plate can lead to aggressive base running on him. Only saw his move to 1B a couple times, was fringe ML average at best. Pick off move can be corrected and made more effective.

Summation and Signability Worth 4th rd slot \$ _____ Will He Sign _____ Will Sign For _____

He has plus command and plus ability to keep hitters off balance. Aggressive approach & is not scared to pitch inside to RH hitters. Plus movement on cutter and curveball. Given his size, arm action and pitch movement, it can be assumed his spin rates would rank in the plus range. High understanding of how to attack strike zone. I spoke with his catcher after the game, he noted the spin & movement of the cutter. Academic honor roll in first two years @ Bryant University. His sister was a member of Division III national runner up softball team in 2016. Entering his junior year. Has the tools & make up to play at the next level. Recommend to select in rounds 4 or 5.
